- Python
- React.js
- AI Tools
- PowerPoint
- HTML
- REST API
- Microsoft Excel
- CSS
- MySQL
- Microsoft Word

PROJECTS

- EduGesture 3D — Interactive Learning Platform: AI-powered platform enabling teachers to interact with 3D models using natural hand gestures, with real-time gesture recognition via MediaPipe and computer vision, and interactive 3D controls for rotation, zoom, movement, and reset.
- AI-Based CCTV System — Crowd Management, Crime Prevention & Work Monitoring: Real-time video analysis system using computer vision and AI for crowd detection and identifying suspicious activity, supporting crime prevention and workplace monitoring.
- Study Buddy AI: AI-powered virtual study assistant offering doubt resolution, personalized study plans, quiz generation, notes summarization, and progress tracking.
- InterviewAI: Application to help users prepare for interviews.
- Voice-Controlled Virtual Assistant: Developed a voice-controlled assistant for hands-free task execution.
- Crowd Monitoring System: System for tracking and analyzing crowd density and movement.
- College Chatbot: Conversational chatbot to answer student queries about college information.

WORK EXPERIENCE

Junior Mobile App Developer — Yuva Intern (Virtual Internship) *06/2026 – 07/2026*

- Study Buddy AI (Virtual Project): Developed an AI-powered virtual study assistant that helps students with doubt resolution, personalized study plans, quiz generation, notes summarization, and progress tracking to improve learning outcomes.
